

## Economic Well-Being Indicators

### Children in Poverty

- In 2018, the federal poverty threshold was \$20,231 for a family of three with two children and \$25,465 for a family of four with two children.
- In 2017, about one in six (17%) children in Rhode Island (a total of 33,858 children) lived in poverty.
- Between 2013 and 2017, almost two-thirds (64%) of Rhode Island’s children living in poverty lived in just four cities - Central Falls, Pawtucket, Providence, and Woonsocket.

### Child Poverty Concentrated in Four Core Cities, Rhode Island, 2013-2017

CITY/TOWN	NUMBER IN POVERTY	PERCENTAGE IN POVERTY	NUMBER IN EXTREME POVERTY	PERCENTAGE IN EXTREME POVERTY
Central Falls	2,297	41.5%	809	14.6%
Pawtucket	4,913	30.9%	1,735	10.9%
Providence	14,520	36.0%	6,309	15.7%
Woonsocket	3,357	38.5%	1,661	19.0%
<i>Rhode Island</i>	<i>39,229</i>	<i>18.9%</i>	<i>16,523</i>	<i>7.9%</i>

Source: Population Reference Bureau analysis of 2013-2017 American Community Survey data.

- The four core cities also have substantial numbers of children living in extreme poverty, defined as families with incomes below 50% of the federal poverty level, or \$10,116 for a family of three with two children and \$12,733 for a family of four with two children in 2018.
- Between 2013 and 2017, 20.9% (13,560) of Rhode Island children under age six lived in poverty. Children under age six are at higher risk of living in poverty than any other age group. Exposure to risk factors associated with poverty, including inadequate nutrition, environmental toxins, crowded and unstable housing, maternal depression, trauma and abuse, lower quality child care, and parental substance abuse interferes with young children’s emotional, physical, and intellectual development.

### Cost of Housing

- The average cost of rent for a two-bedroom apartment in Rhode Island in 2018 was \$1,621. The percentage of renters in Rhode Island who spent 30% or more of their household income on rent was 46% in 2017, down from 49% in 2008.
- In 2018, a worker would have to earn \$31.17 an hour and work 40 hours a week year-round to be able to afford the average rent in Rhode Island without a cost burden. This hourly wage is more than three times the 2018 minimum wage of \$10.10 per hour.

## Economic Well-Being Indicators

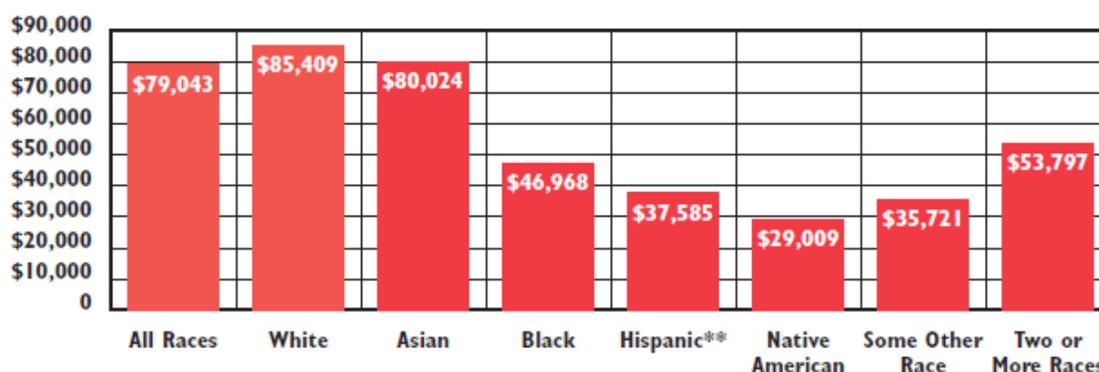

### Homeless Children

- In 2018, 403 families with 653 children stayed at an emergency homeless shelter, domestic violence shelter, or transitional housing facility in Rhode Island. Children made up 17% of the people who used emergency homeless shelters, domestic violence shelters, and transitional housing in 2018. Forty-two percent of these children were under age six, not yet school age.
- During the 2017-2018 school year, Rhode Island public school personnel identified 1,579 children as homeless. Of these children, 72% lived with other families (“doubled up”), 19% lived in shelters, 7% lived in hotels or motels, and 2% were unsheltered.
- As of December 12, 2018, there were 152 families on the state’s wait list awaiting shelter.

### Median Family Income

- In 2017, the median family income for Rhode Island families with their own children was \$79,967. Rhode Island had the 12th highest median family income nationally and the fourth highest in New England.
- The median income for White families in Rhode Island is higher than that of Asian families, and much higher than that of Black, Hispanic, and Native American families.

Source: U.S. Census Bureau, American Community Survey, 2013-2017. Tables B19113, B19113A, B19113B, B19113C, B19113D, B19113E, B19113G, and B19113I. \*Median Family Income by race and ethnicity includes all families because data for families with “own children” are not available by race and ethnicity. \*\*Hispanics may be in any race category.

### Paid Family Leave

- Rhode Island’s Temporary Caregiver Insurance (TCI) program, established in 2014, provides up to four weeks of partial wage replacement benefits to eligible workers who need

## Economic Well-Being Indicators

to take time off from work to bond with a newborn, adopted or foster child, or to care for a seriously ill family member. There were 6,760 approved claims for TCI during 2018 (up from 6,224 in 2017); 80% (5,390) were to bond with a new child and 20% (1,370) were to care for a seriously ill family member.

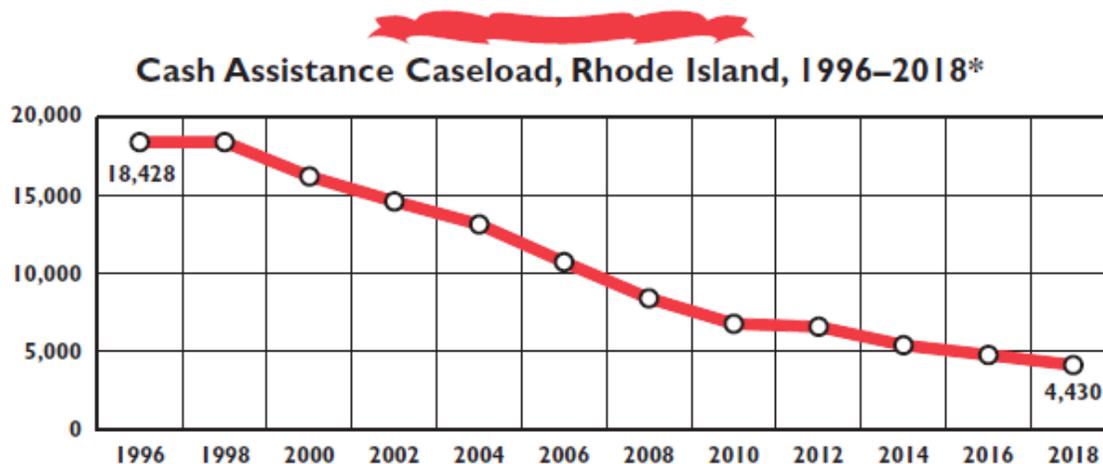

- Forty-four percent of individuals contributing to TDI/TCI earn less than \$20,000, yet only 16% of all approved TCI claims were for an individual with wages in this category.

### Children Receiving Child Support

- As of December 1, 2018, there were 71,628 children in Rhode Island’s Office of Child Support Services system. Among these children, 4,883 were enrolled in Rhode Island Works (RI Works). In Rhode Island, the first \$50 of child support paid on time each month on behalf of a child receiving RI Works cash assistance goes to the custodial parent. The remainder is retained by the federal and state government as reimbursement for assistance received through RI Works.
- Non-custodial parents who pay regular child support are more involved with their children, providing them with emotional support and care, and receipt of regular child support can have a positive effect on children’s economic well-being.

### Children in Families Receiving Cash Assistance

- Since 1996, when the program began, the Rhode Island cash assistance caseload has declined steadily. Between 1996 and 2018, the Rhode Island cash assistance caseload decreased by 77% from 18,428 cases to 4,149 families.

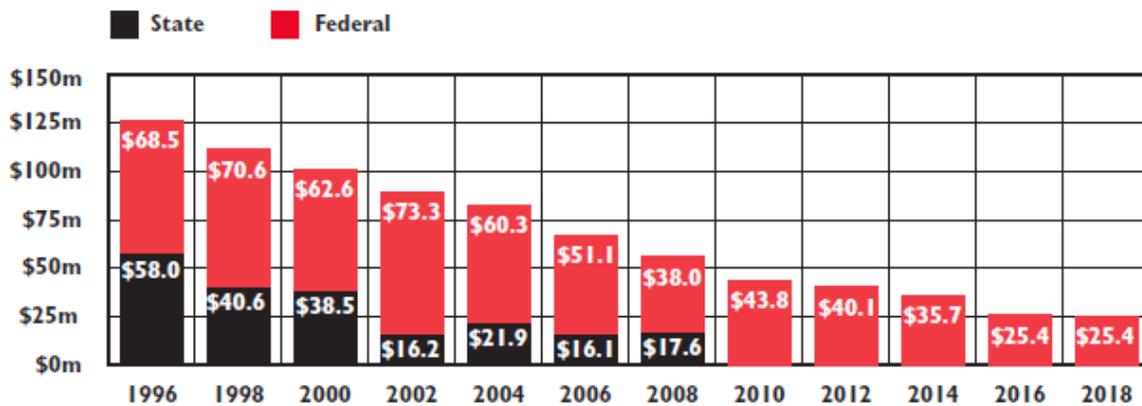

Source: Rhode Island Department of Human Services, InRhodes Database, December 1, 1996-2015 and RI Bridges Database, December 2016-2018. Cases can be child-only or whole families and multiple people can be included in one case. \*The Rhode Island Department of Human Services changed the method for calculating the caseload data starting in the 2012 Factbook. This change is reflected in 2010-2018 caseload data. Comparisons to earlier years should be made with caution. Starting in 2016, caseload data are for the month of December and not for a point in time, December 1.

- In 2017, 10,761 children in Rhode Island lived in extreme poverty, yet only 7,593 children received cash assistance in December 2017.

## Economic Well-Being Indicators

- The lifetime limit for RI Works is 48 months. Families also are limited to no more than 24 months of cash assistance in a 60-month period. Rhode Island is one of only 13 states that has a lifetime limit less than the federal 60-month time limit, and one of only eight states that imposes a periodic time limit on its entire caseload
- In State Fiscal Year 2018, for the ninth year in a row, no state general revenue was allocated for cash assistance. The cash assistance program is now entirely supported by federal Temporary Assistance for Needy Families (TANF) block grant funds.

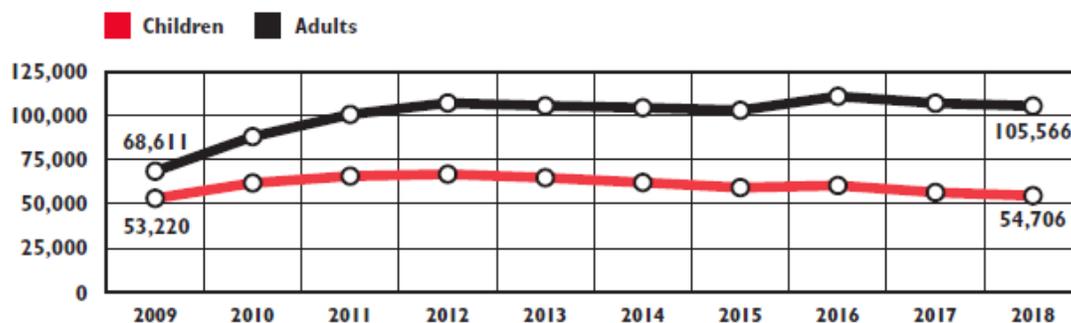

### Rhode Island Cash Assistance Expenditures, State Fiscal Years 1996-2018

Sources: Rhode Island Department of Human Services, *Family Independence Program 2007 annual report*. (FY 1996-2001); House Fiscal Advisory Staff. (2004-2018). *Budget as enacted: Fiscal Years 2005-2019*. (FY 2001-2018). Fiscal years 1996-2017 are funds spent and FY 2018 is final budget.

### Children Receiving SNAP Benefits

#### Participation in the Supplemental Nutrition Assistance Program, Children and Adults, Rhode Island, 2009-2018

Source: Rhode Island Department of Human Services, InRhodes Database, 2009–2015 and RI Bridges Database, 2016–2018. Data represent children under age 18 and adults who participated in SNAP during the month of October.

## Economic Well-Being Indicators

- The number of children and adults receiving SNAP benefits decreased slowly between 2012 and 2015, then increased in 2016. It is possible that the 2016 increase is due to efforts to avoid denying eligible SNAP recipients during the difficult transition to the RI Bridges/UHIP computer system. Between 2016 and 2018, the number of adults and children receiving SNAP benefits again decreased.
- In Rhode Island during October 2018, 76% of SNAP recipients had gross incomes below the federal poverty level (\$20,780 for a family of three in 2018).
- In October 2018, the average monthly SNAP benefit for a family of three in Rhode Island was \$377.

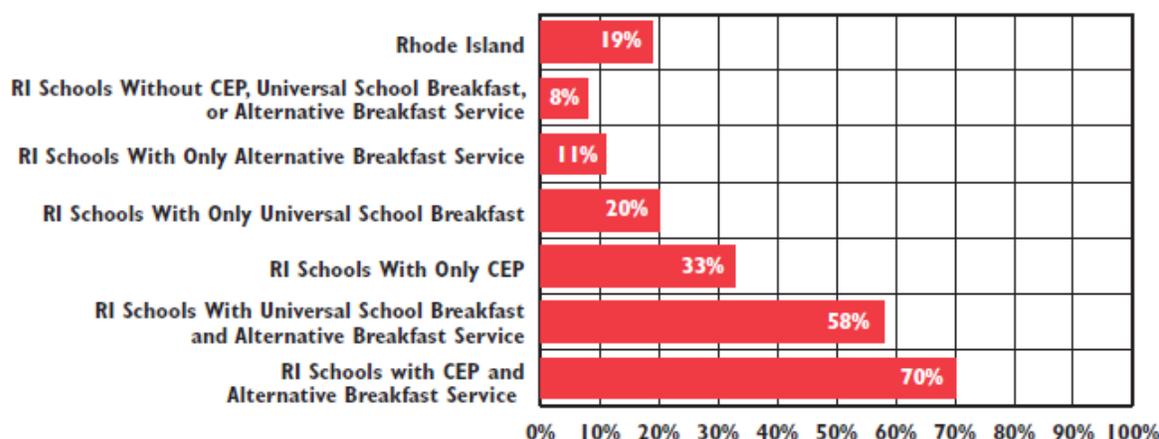

### Women and Children Participating in WIC

- In September 2018, 21,209 women, infants, and children in Rhode Island were enrolled in the Special Supplemental Nutrition Program for Women, Infants and Children (WIC). The program served 46% of eligible women, infants, and children.
- WIC participation has been shown to reduce infant mortality, improve birth outcomes (including reducing the likelihood of low birthweight and prematurity), improve cognitive development, reduce the risk of child abuse and neglect, increase child immunization rates, and increase access to preventive medical care.

### Children Participating in School Breakfast

- During the 2017-2018 school year in Rhode Island, 53 low-income students participated in the School Breakfast Program for every 100 low-income students that participated in the School Lunch Program.

**Children Participating in the School Breakfast Program,  
Rhode Island, October 2018**

Source: Rhode Island Department of Education, Child Nutrition Programs, Office of Statewide Efficiencies, October 2018.

## Economic Well-Being Indicators

- The federal Community Eligibility Provision (CEP) allows schools and districts with 40% or more students identified as low-income (e.g., enrolled in the Supplemental Nutrition Assistance Program) or at-risk (i.e., homeless or in foster care) to provide free breakfast and lunch to all students and offers higher reimbursements.
- Universal School Breakfast Programs, which provide free breakfast to all children regardless of income, increase school breakfast participation by removing the stigma often associated with school breakfast and can reduce the administrative burden for schools.
- Making breakfast part of the school day is another proven strategy for increasing breakfast participation, reducing stigma, and increasing convenience.

### Racial and Ethnic Disparities in Economic Well-Being

- In Rhode Island, a number of measures show that the economic well-being of children and families differs substantially by race and ethnicity.

### Economic Well-Being Outcomes, by Race and Ethnicity, Rhode Island

	WHITE	HISPANIC	BLACK	ASIAN	NATIVE AMERICAN	ALL RACES
Children in Poverty	14%	38%	29%	9%	64%	19%
Births to Mothers with <12 Years Education	6%	25%	13%	7%	23%	11%
Unemployment Rate	3.7%	7.2%	6.3%	NA	NA	4.1%
Median Family Income	\$85,409	\$37,585	\$46,968	\$80,024	\$29,009	\$79,043
Homeownership	65%	28%	31%	49%	19%	60%
